ABOUT ME

Motivated 2nd year B.tech student interested in Embedded Systems, PCB Design, and UI/UX Design. Passionate about learning practical technologies and seeking internship opportunities to improve technical and problem-solving skills

EDUCATION

B.Tech - ECE

MVGR college of engineering
CGPA: 8.59

SKILLS

C programming	
Kicad PCB Design	
Arduino Basics	
Embedded Syste	
Circuit Design	

LANGUAGE

- Telugu
- English

PROJECTS

Arduino LED Blink Circuit

2020 - 2023

- Built a basic LED blinking circuit using Arduino UNO.
- Learned resistor connections, breadboard wiring, and Arduino IDE uploading.

PCB Design using Kicad

- Practiced PCB designing and routing using KiCad
- Learned edge cuts, track routing, and 3D PCB visualization.

Basic UI Design in Figma

- Designed beginner UI layouts and 3D PCB visualization

HOBBIES

- PCB Designing
- Learning Embedded Systems
- UI/UX Designing
- Exploring New Technologies
